Keymacro works with almost any application to provide the function of hot keys. It is very useful when it comes to performing tasks quickly, for example opening a file, creating a new folder, or scrolling up and down on web pages. Keymacro works with almost any application to provide the function of hot keys. It is very useful when it comes to performing tasks quickly, for example opening a file, creating a new folder, or scrolling up and down on web pages. KEYMACRO 1.0.1.50- Beta version of KEYMACRO. If you already have the installer, update the Keymacro program to the latest version! KEYMACRO 1.0.1.50- Beta version of KEYMACRO. If you already have the installer, update the Keymacro program to the latest version! Keymacro has been designed to help you work faster and more effectively in your everyday life. The program is very easy to use. It contains a set of very short and well-organized macro tasks which you can execute from anywhere within your favorite application. Keymacro is designed to work with almost any application that provides hot keys. In Keymacro you can make the following key combinations: - open file - save file - create new folder - delete file - open folder - save folder - rename file - move file - move folder - open document - create new document - close document - open web page - scroll up or down web page - open image - select text - select image - open registry - add contact - exit program - undo last change - print - copy - cut - paste - close program - open program - minimize program - exit program To make your life easier you can record keystrokes, which is convenient for saving time and using your computer more efficiently. Keymacro also features a "Virtual Keyboard" tool that allows you to create a virtual keyboard which you can use even when the actual keyboard is not installed on your computer. It makes the keyboard seem as if it was installed and ready to use. Keymacro supports Windows 95/98/NT/2000/XP. With Keymacro you can create key macros and save them as.LST files. Once the file is created you can use it in your favorite applications. Keymacro has a really simple interface. The <http://www.eiserne-kubik-elfen.com/component/kide/popup?itemid=174%3Ecustom>
