This theme is inspired by pictures from NASA. This theme is very much a minimalist theme, using space to represent a galaxy and a planet. Details: - Dark color scheme of red and black - A planet in front of a black background, all on white - Planet is always on top, never behind any windows - Very simple color scheme, no gradients or transitions - No moving elements - All of the animations are very simple and understated Here is the light version of my new all-in-one (menu and

desktop) theme. This theme is one of my biggest productions to date. It has been made from scratch, and I can't wait to share it with you. I hope you enjoy the theme. The Themes Download The link to the download is on the description. Download Link Features: - All new theme that does not have the same elements and ideas of the other themes in my lineup. - Every element has been hand-picked and tweaked to give the theme a more professional look. - Menu style works fine with most menus. - All of the windows have been resized to work fine with the new theme. - A

wonderful new desktop background, available for Windows 7, 8, and 8.1. - New icons for all of your application - All of the animations are very simple and understated. - New icons for your Steam, Netflix, Spotify and Windows Store applications. - The Themes Menu is built into the theme, so you do not have to go hunting for it. Here's a brilliant new desktop wallpaper for you, that is perfect for Red Steel 2. This theme uses the same character as the other two, but is crafted with a different personality. Themes download The link is on the

description. Download Link Details: - Themes menu style is perfect with the theme. - This theme is perfect for those who like this wallpaper. - Windows 7 & 8 Desktop background. Who wants to see a surreal space world? How about that old one: Alot of the early Windows themes did a great job of this, but we have seen better from the past years. This theme was created with the theme creation software 'Microsoft Visual Studio 2012'. Theme Features: - A space themed user interface. - A background with a lot of detail, which gives a great feel. -

A desktop theme for Windows 7

What's New In Red Planet?

This is a brilliant, blue planet theme. The planet is actually the face of a game box, and is designed to look like a floating world. Description: This Space Blue 9 theme is the ninth version of a simple and clean Windows 7 theme. It features a colorful wallpaper background to compliment the

System Requirements For Red Planet:

Recommended: Xbox One X Slightly Recommended: Xbox One Not Recommended: PC Like most recent Disney games, this one is all about making money. And while it's been said before that Star Wars: Battlefront II is about as close to that as we'll get, it's still the case that this is ultimately an action-packed game. Yet it's also also a survival-driven Star Wars shooter, where you must manage resources as efficiently as possible to stay alive
