The organisation

is based in Addis Ababa. The organisation grew out of the meeting held by Abune Mathias on 17 October 1957 as a result of the need of youth of the Oromo to have a house of Christian fellowship in the capital city. The association was modelled after the similar Hebrew Christian Association that had been formed in Addis Ababa in 1922. Oromo Youth Association is divided into four zones. The two zones within the city limits of Addis Ababa have four departments each. The headquarters of the organisation is located in the Hark Street area of Addis Ababa. References

the fourth metal connection and the
second metal connection is no longer
available to receive a metallic component.
According to the above, the invention
avoids the problems set forth in the prior
art in a simple and intelligent way and
achieves a novel solution to the problem of
cross-connecting high voltage insulating
components on PCBs, especially when the
PCB serves as a back plane, and in which
an inner PCB is used as a backplane.
Preferably, the same space is required for
installing the backplane structure of the
invention as for installing a backplane
structure according to the prior art. As
mentioned above, it is an object of the
present invention to provide a device and a
process for connecting two parallel

components with another component, which has the characteristic of disconnection and reconnection even under fault conditions.
