### **What's new:**

**Dark Games has changed the fantasy RPG genre by introducing a new aspect, where the player and the character become one, and the writer and the reader become one. Rather than expressing a play story using action scenes, we have written a pure fantasy drama.**

**In combination with NIS, we will introduce an interlocking element of the game to full story-driven play. You will experience a brand new fantasy drama that takes place in the Lands Between. We will tell a story that the player cannot fail to appreciate.**
