The Yakovlev Yak-52 is a tandem seat, radial engine, trainer aircraft that served as the primary aircraft trainer for the Soviet Union and many other nations. Introduced in 1979, the Yak-52 has been a popular choice among air forces given its rugged construction, ease of handling, tricycle landing gear, and simple maintenance. These same characteristics have made it a popular civilian aerobatics aircraft in its later years. The Yak-52 is powered by a single Vedeneyev M-14P, nine-cylinder radial piston engine with 360 horsepower. We have created a new radial piston engine simulation from the ground up with a highly-realistic engine cooling model. The aircraft is very responsive given an empty weight of just one ton and large controls surfaces. Capable of pulling over 7 G and pushing up to negative 5 G, it's no wonder the Yak-52 has been popular with aerobatic teams around the world. The DCS: Yak-52 provides a realistic pilot training progression from the Yak-52, to the L-39C jet trainer, to modern fighters like the MiG-29 and Su-27. Karma Miwa [Latest 2022]

This is a completely original turn-based, tactical RPG based on the novel Brave New World by Aldous Huxley, covering the dark ages of Earth up until the 1960s, when human life is starting to revert back to its original barbarous state, before the major scientific and cultural advances of the 20th century. In this apocalyptic world, the time has come for mankind to claw itself back to a semblance of civilisation, to re-start the race... to build a new world. But the old world is not finished, it is still armed with super-weapons that are being re-created in the laboratories. And it's up to the three protagonists to find, assemble and use the Lost Arc Weapons, to create an inferno that will consume the old world and to start anew. With Humble Bundle's flagship game offering, you can choose just what you want from the list of games featured to package together. The list keeps growing and growing, but not all bundles are created equal. Read on to learn why. Saturday, April 8, 2013 Humble Beat sold 6.2k copies of their game, and while not the best selling game, it was their best week ever. Indie Royale, now having been purchased by Humble Bundle, kept a fairly steady pace of indie sales. They sold 100k worth of product, which is not impressive. Hopefully their goal of 100k daily sales for four weeks will be reached. Developers, here are your sales charts to analyze: On Steam, the week was dominated by the Humble Indie Bundle #5, which sold 37k copies. It was the best selling game, but the one that sold the most of any game was Kingdom Come Deliverance, selling 23k copies. In Humble Bundle's own Humble Beat: The game's name is literally a pun of "Beat Games" and did well with the pun for sure. The game sold 9.5k copies, which were strong compared to the rest of the titles in the bundle. The Humble Gem was only 3.6k while Wayward didn't do too bad at all, selling 8.4k copies. Other games on the chart like Dungeon Defenders 2 had strong weeks, with 4.8k copies sold. Humble Indie Bundle #4 was also a big seller with 31.2k copies sold and was the best selling game for the week on Steam. There are a ton of new c9d1549cd

What's new:

Post by jadams on Feb 24, 2013 7:56:58 GMT -6 I know you said not to bother you with this but I know you probably think this is unusual right now, but here goes. My brother's girlfriend is visiting from Russia. We know this because she told my brother she was from "Chechnya" and that she had seen the news, but she did not know what happened at the white house. My brother has since told her what happened and they are really worried about eachother's safety and he has requested that she be cautious and to tell him what she feels she's safe with (name, phone number) if she feels as though her safety is at risk, she should tell him since he knows what to do. They are both 26 and he's already talked to his girlfriend about what's been going on and really does not want this to have an effect on their relationship. He said he doesn't see this as a problem. She's been told though that "she can not post anything" & "that they know what she is thinking" and that people she knows "have read her (her heart) and know what she is thinking." She knows he has kids with another woman & is she not protective of her children while in America. She's never been in America before and she's afraid for her safety. They've talked about how she had to get out of Russia and that she got a ride to the airport. She has NO ID or money, no drivers license and it's been a very emotional conversation for her. I asked if she would call him (if she heard something) and she agreed that she would to be safe. I asked if I could take her cell phone number and he said yeah go ahead so I asked to put it in his peace of mind. He really doesn't know what he's going to do if her promise of keeping their conversation private if she needs him isn't kept. I can't imagine what she feels. I've told him people have died for saying what they are thinking but that's not really what he wants. He told me when she gets out they will make arrangements to let her know what to do if she wants to make a claim and make sure that she knows what she can and can not talk about but she said to say that she's fine. Is that true. We'll make everything right. We don't know when she'll be in, but she'll be here next

Chaos Town Skins - EquoNexus Town Skins - EquoNexus Review:

This may be a very incomplete project but it looks cool, especially features like an unlockable female skin. One feature I like is the transition of the walls if you run a circle the the outer wall while running.
