How should I do that? A: Use System.IO.Directory.GetFiles() with an absolute path as the search path. Returns an array containing all the files in the specified directory. Once you have an array of files, you can loop and create the.csv files using the code shown in this post: How to export data from a.CSV file to a PDF file using C#? // // OAuth2Session.m // OAuth2 // // Created by Jon Crosby on 11/5/15. // Copyright (c) 2015 Tech. "My family put me in a position where I had to decide between a career in Scotland and my family," she told the BBC. "To be fair, they supported me quite a lot with the application." When the Scottish university told her that, for the first time in its history, it would place priority on applicants from the UK and Eire over non-Scottish applicants, she "rebelled," deciding to apply to Eigg University of the British isles instead. Hyslop ultimately scored the equivalent of an A-minuses in her first and second years of English at Edinburgh Napier, and passed her final year English exam. "I knew there would be a possibility of going to Eigg, but it was a shock that I was accepted on condition." When Hyslop's mother, a nurse who worked for the NHS in Scotland until she retired, discovered that Hyslop had been offered a place at Eigg, she sent her daughter a message on Facebook. The exchange
