Thanks! -Vic Reply to this topic In reply to Efren T Aurum Online This game has been removed from the Steam store due to a reported bug. Sorry for the inconvenience. The item is still available to download for offline play through your Steam client. While Movavi Video Suite is our top pick, Im still using Movavi Online Video Suite. Please let me know how well the upload works in Movavi Video Suite and if they have introduced any improvements. Reply Aurum Online I recently purchased it, the upload is very poor.
