---

Gates of Siberia is a short little game. It is meant to be hilarious. It's a bit of "slapstick" fantasy. It is intended for people of all ages (not a nightgown). It makes a few references to a recent event in our world, but it is still set in an entirely fictional world. On top of that, it contains no blood, no gore, and nothing that even remotely resembles the brutality and violence of real life. If you like The Lord of the Rings, The Hobbit, the Teenage Mutant Ninja Turtles, Star Trek, Marvel, or DC comics, you will probably have a good time. If you're a skeptic, you might not get it. If you're a Jehovah's Witness, you might not get it. Who it's for: If you like either of those things, if you're willing to forgive the obvious nerdy humor, then you should absolutely check out the Gates of Siberia. The Story: Based on The War of the Ring, the world's most popular fantasy novel, this is Gates of Siberia. It features a unique take on the stories we all know. The book is a comedy, a "slapstick" fantasy. It is set in the story of a dying world. It's a mixture of old world mythology and

---

science fiction. Gates of Siberia is a true cultural mashup. The Space Castles: An army of evil wizards have taken over a decaying imperial city, a place the locals call the Black Tower. At the core of the tower is a giant statue of a huge-headed human riding a griffin. The wizard's rule the nearby plains, preying upon the poor. The book's protagonist, Liana, is a young witch who was raised by a weird little town called Sky Street. It is a loose reference to J.R.R. Tolkien's Shire. Liana goes to Sky Street in search of work, just like Frodo in LOTR. She ends up aboard the Ekur, a mighty airship. She travels the skies under the devious command of the space castle. Her quest is to save her pet cat, a cat named Hynk. He is the only one that is still alive in the world. J.K. Rowling is referenced several times in the book. (www.yaoot.com) What people are saying

### **Oh...Sir!! The Insult Simulator Features Key:**

easy to learn  
interesting puzzle game  
many difficulty options  
challenge against rival

### **the Sequence [2]**

#### **How to Play:**

- 1. Turn the page around using the arrows below to choose a level of difficulty.**
- 2. Fill the circle with colored balls.**

---

**The more colors you add the more points you will get.**

- 3. Move the balls around the board that are not on the track by dragging them with the mouse and release.**
- 4. If a ball touches a ball of the same color it is removed from the board and scores will be deducted.**
- 5. Ladder mode: From level 1 to 4. You can switch between them using a sequence of a button.**

### **Game Statistics:**

- Levels:**
- Fenix: 3 difficult levels!**
- Duke: 3 difficult levels!**
- The Waffle: 5 difficult levels!**
- Golden: 4 difficult levels!**
- Rolling: 3 difficult levels!**
- Flaming: 9 difficult levels!**
- Jump: 29 difficult levels!**
- Long Po: 20 difficult levels!**

### **Usages:**

- Use page zoom to enlarge texts.**
- Click in the moon phase to change to a different moon phase.**
