Features Key:

The world of Gude is completely redesigned. Exploration is exciting through the use of magical

powers that influence diverse situations and create a sense of progress and exhilaration. The field and huge dungeon scattered through Gude are diverse and the action is always gripping.

In epic drama, the concept of interactive dramas is adopted. After the player's party annihilates a foe, the game will continue, expanding the areas that have already been cleared by the party. This continuous story with exciting turns will keep you from becoming bored.

A vanguard system and a class system improved from the previous version of Elden Ring. With these systems, your character can be customized according to play style.

Powerful weapons and armor must be improved to overcome the seemingly impossible strength of many foes. New forms of combos, status effects, and useful tools have been introduced to increase your tactical strength.

Enchanting is, of course, another key element. The game contains countless possibilities as you develop new arts. Moreover, enchanted items can change depending on the strength of the Party Member using them.

A previously exposed "Lokraining" system has been upgraded to an all-new "Megaten" system. Being able to meet those who, in the past, could only have been reached through real-time, seamless communication is now possible, which makes the connection between the game and the latest news server even better.

Since the latest version 1.2.0.2 is a special version, it does not support iOS 7 and other older operating systems.

For optimal gameplay, please make sure to update your Mac, which is performing at over 90% usage, to a newer version. For those users who are already running the latest version, please shut down your program and start again. Alternatively, restart your computer.

The game cannot be installed on devices other than:

- Mac OS 10.6 or higher
- Windows 8.1 and higher

If your animation loading is slow, please optimize your animation files by reducing resolution.

GAMEPLAY Dungeon Exploration In dungeon exploration, the world map contains a map that shows your current location, and the depth of a dungeon or other places that can be explored. Each time a dungeon is opened, the story will branch off and your character will be given a set of different orders depending on which route you chose. Depending on the route, your character will find different things. If you choose a route that takes you past monsters and traps, you can equip your character with a wide variety of different weapons and magic. Combat Most of the time you will be traveling along the world map and exploring dungeons in order to get back to a starting point. While traveling on the world map, your character will occasionally come across enemies. When enemies come up, it is possible to equip your character with different weapons. By equipping a specific weapon, you can battle the enemy with stronger strength. In addition to physical attacks, you can also use specific skills to fight the enemy more effectively. If the enemy attacks your character, your character will start using a range of skills based on the type of weapon that you are using. Depending on the type of enemy, the skills that you use will change. Aromatherapy Using the smells of the different landscapes, you can use the power of aromatherapy, which influences the mood and gameplay of your character. If you use the power of the right fragrance, you will be able to affect the situation, which will affect the whole story. Enchantment Using the power of pleasure, you can enchant items. In order to enchant items, you will be required to meet certain conditions, which will be marked on the map. As you go through certain areas, specific conditions will arise, and you will be able to use the Aromatherapy power of the land to affect the item and enchant it. Omniscience In order to gain the power of omniscience, you must create a diorama. By creating and placing various items on top of a set object, you can create a diorama, which can be used to summon a ghost. The ghost will appear as soon as you place the item on top of the set object. After placing the object on top, you will have to wait a little longer to have the process completed. Magic Depending on the place that you go, it is possible to use various different magic skills. By equipping specific different magic skills, you can affect the situation. You can also

About KindGames

ENGINE COMMUNITIES, WE MAKE THE MAGIC WE MAKE THE GAME.

KindGames was founded in 2012. With a staff of four people, our first products were merely browser applications and associated services. The relative small size of our staff allowed us to maintain a high level of quality while still growing at the pace of a young company. Among the first services that grew and developed well was MXG, a premium community for fans of the series titles Red Rex].

Being in the pre-n3vative side of things, we were always in the thick of experimentation and improvement over the course of time, so it has naturally led us to the present. While the initial focus on community had led to many technological advancements, it has also forced us to evolve. We are now shifting the direction of our company towards fine tuning the original ideas that have long stood at the foundation of our games. In the meanwhile, we are also starting to work on the latest of a series of titles, our take on the fantasy action RPG.
