Revi May 21, 2017 Recommended Great The gameplay is easy to play and the story is simple and beautiful. It takes only about 10 hours to finish the game. I really love the music and the graphics of the game are nice as well. The game gives you the opportunity to create your own character and play as the hero of the game. There are numerous quests and monsters to fight and also the game is an online multiplayer so you can share the experiences of fighting with others and also play with them. You can enjoy this game in the best way if you have Microsoft Windows, Mac OS, IOS and Android. If you want to play a RPG game with unique story and a lot of action then this is the game for you. - koshi1247.net Kai Corrales March 29, 2017 Good/Average I really loved how the story was told in first person and it was an immersive experience. The battle system was pretty deep and it made it a fun game to play. However, I didn't like the customization option for your character, which isn't really necessary. I think it would have made the game more fun if they made it customizable. It's a little bit lacking in the graphics department. The game is a little simplistic, but as far as RPG games go, it's pretty good. It also has an interesting story line that makes for a good play through for the whole game. It's an amazing game overall, but you may find it a bit lacking in certain aspects. - Vidyaadam.com suhen January 17, 2017 Good/Average The game was good overall. I really loved the gameplay and the story in the game. It was simple and easy to understand but it took me longer than I expected to beat the game. The graphics were good and it was fun to play. The battle system was pretty advanced but it was a little bit lacking in the music department. Overall, I think that this game is an overall good game. - fifa97.net bff6bb2d33

Elden Ring [Win/Mac]

While the game does not have specific information about how many will be able to participate in the beta test, in terms of the gameplay, it's a total conversion RPG action game, so if you are a fan of action games such as "King's Raid" or "World of Warcraft", or if you have a fondness for RPG games such as "Final Fantasy" or "Border Break," then you should know that this is the kind of title that would satisfy your desires. The settings for the action game are divided into three locations. The regions of the game are known as Elden (Orden), and Arden. The dimension of Arden is the "Lost Gloom" but not everything we know about it is known yet. From the character's point of view, Arden is a place of chaos and destruction. The Elden is a world where humans live in balance with nature, and where the rules of the world are static. In Arden, the laws are not fixed and spirits of animals, plants, and inanimate objects are well established. In Arden, there is a power known as the "Tendance of Spirits." A Tendance belongs to a certain spirit, and the Tendance being of a certain spirit has a particular ability. For example, a Favored Tendance of the Wolf is Strength, and a Favored Tendance of the Devil is Gravity. What most Ardenians lack is gravity. In Arden, where the ground does not move as in Elden, Ardenians can fly. The fact that gravity does not exist in Arden is a source of pride for Ardenians, and they use this as an advantage. While Arden is a world where nature is free, nature has its own law and there is "reciprocal connection" with nature. There is something called the "Necromancer Tendance." A person will become a Necromancer if his Tendance is that of necromancy. As with the case of the wolf, a Necromancer is also a spirit. Because Necromancy is forbidden in the Elden, Necromancers are considered evil. A Necromancer is the embodiment of an evil spirit and he is known as a "Kreis." Ardenians are not peculiar. They mix their blood with Arden's, and there is a group called the "Necros" whose members are "Necromancers"

The FBI, Department of Homeland Security and state and local police are taking advantage of the transition between the outgoing Obama and incoming Trump administrations to aggressively sweep up records, disrupt organizations and target those whose political views are not congruent with those of the US Government. Just last month, the Baltimore Police Department was fined \$251,000 by a federal judge for violating the First Amendment of the US Constitution by harassing and restricting the civil rights of individuals who report on police brutality and corruption. A \$51 million settlement of a lawsuit against the Baltimore Police Department revealed that residents regularly reported being harassed by police to the city's public defenders. The city's police department, which is 39% black, paid \$51 million dollars of taxpayer money to settle a jury trial that lasted seven days. Last month, for the first time, we could observe the brave efforts of New York Mayor Bill de Blasio's police department. To celebrate Black History Month, the NYPD has begun a "hands-off enforcement policy" in the black community, pressuring residents to stop offending police officers with blatant criminal activity by locking up people for racial profiling and harassment. Hooksett, New Hampshire. New England Poverty Law Center (NECLC) members Tracy Hymas and Tom Burgard document a new harassment and intimidation campaign that residents of the community must face following a police-related gun shooting by the town police department. As the police station is under police guard, residents are not being allowed to use it. The NECLC concludes that "the police are now using [domestic disturbances] as leverage for this [adverse search and seizure] and for other actions," highlighting the widespread abuse of

the law in Hooksett. On December 28, 2016, Peaceful Streets Project member Gloria Greenwell released a video (of her being harassed and stopped by police in Atlanta to protest the shooting of Akai Gurley by police: Greenwell was arrested multiple times while showing videos, holding a bullhorn and walking in the streets during the protest. Police accuse her of criminal trespass and obstruction. She was charged with obstructing
