The next update for The Godfather Jr. Remastered contains a new version of the game, plus full versions of four unreleased games by "original" PONG creator Bill Gullixson. All of this comes in the form of GemCraft: Labyrinth and a free map pack. This is great news because "The Godfather Jr. Remastered" remastered is in many cases better than the game it is based on. Among the changes are a new digital model of the television screen, more diverse visual settings, new graphics, better models and animation, and more. I already discussed the new graphic settings feature in our review, and it also applies to the remastered version. As for the changes to the visuals, there is a new television with a computer style image for it and the new graphics also get applied to this television. A few other things are also included and are worth mentioning, like a new and improved sound system for cutscenes, changes to the yoyos, allowing you to break through the yoyos in the correct order, a new weapon, new sound effects for the yoyos, mouse acceleration, and
