Youthful Director Hiroshi "EV" Watanabe made this game with a combination of his artistic sense, and a keen eye for detail. This is a "lone developer" game, with the talented director and the Creative Director, who is the writer and editor of this game, as your only staff members. "The game I've made," says director Hiroshi Watanabe, "is a mysterious visual novel with a very interesting story; a game which the direction and planning was done by the director, and the artistic execution done by the graphic artist, who is a character designer himself, as well as a music composer for Visual Novels. I'd like to make sure it's a work worth bothering with." The story centers around the town of Daiusu, in the Kantou region, in Japan. In response to the rapid advances of a modern world over the last 100 years, a cult-like religion "Brotherhood of U-Ke-No-No-Nomi-Nashi" was born in this village. To protect their beliefs, the members of the "Brotherhood" were protected from change by the government. Thus, the village was secluded from the outside world as it remained cut off from the rest of the world. After doing some research into their history, and the background of the village, we discover

that the village's most important people were believers in a kind-hearted Christian saint, who was born in Japan. However, the saint died at a young age, and after his death was hung from a pine tree, the villagers began to worship him as a saint. The villagers of Daiusu are a living testament to this story. The "Brotherhood of U-Ke-No-No-Nomi-Nashi" does not permit any contact with the outside world, except for the "Guests" who come from the outside to witness this village. The Villagers are overly protective of this group of "Guests" who visit, and they are unable to understand why they are so keen to protect them. In fact, they seem deeply suspicious of them, and they have repeatedly requested that the government step in to protect them. "To the villagers, their deceased saint is part of the outside world, and they are unable to understand why the government would interfere. Therefore, it would appear that it is the people who must protect the saint from the world. The villagers d41b202975

What's new:

, Stone Mountain, GA In the winter of 1941, American writer Dennis Wheatley composed The Midnight Sanctuary, the adventure story that he would dedicate to his wife Diana (but apparently did not mail until 1952). The action centers around the commune of a utopian society, Shriftee (“People of the Stones”), that suffers a devastating onslaught of Nazis and SS soldiers. The MC, the self-styled prophet, believes that such thoughts of violence will never affect the sanctity of his place of renewal, but as always, fate is trickier than one imagines. This challenging, knockout volume first appeared in 1937 and re-issues that include it move as the war progresses. The text is light, fast-paced, and perfect for a young readership. Mountain Vision by S. P. Somtow (UK, Grove Press) The eponymous hero of Mountain Vision (the story of the adventure journalist, Dick Taylor, who uncovers a stunning secret at the center of the volatile terrain of Bhutan in 1982) is a fine-looking lad with a lengthy, brooding face, iron hair, and a general air of quiet determination. Young readers will hopefully find him, as Sally, his long-suffering and quick-witted girlfriend, does, “a complete hero.” Somtow’s novel

(1978) remains one of the “true classics” of wildlife adventure writing and a perfect introduction to the traditions of this genre. *Pleasure to the Left Bank, U.S.A*, by Bridget Frederick (UK, Hamish Hamilton) In 1984, the real-life Bridget, the preternaturally sensitive daughter of New Zealander Philip and his then-American wife, is summoned into London to take care of her older, troubling relative. The bohemian neuropsychiatrist, Boris, has been plunged into a tormented, traumatizing affair with his secretary, and, in the face of such distress, Bridget can’t quite fathom the inner workings of his mind; she has little time to worry about how to get him out of her house, or just what is really happening, anyway. Frederick’s novella (1982) became a bestseller and continues to fascinate for her interplay of light and darkness in “the dream zones that were part of growing up in the 1950s.”
