As you explore, the joy of discovering unknown and overwhelming threats await you, leading to a high sense of accomplishment. In the world of the Lands Between, the iron barrier that exists on the border between life and death disappears, allowing you to freely move between the world of life and the world of death. In order to travel through the border between the two worlds, you must combine three items in order to open the door of a dungeon and enter the dungeon. NPCs are in charge of traveling, and you can travel with the NPC to other places in the map. If the NPC runs into monsters during travel, their allies will be summoned to protect you.
