You can find your Photoshop documents in a tool palette when you open Photoshop. As soon as you open a document, you see the tool palettes along the bottom of the Photoshop window. The exception is the Window tool palettes, which are located directly beneath the Photoshop window. There, you find tools related to the window content, such as the Window's Save for Web & Devices and Window Controls tools, which are found in the Layers panel of the Window tool palette. Q: Animate a row in a table I want to make a delete button when clicked the row to be moved down and faded away. This is what I have so far; `$('.delete-link').on('click', function() { $.ajax({ url: '/delete-proposal/'+$(this).attr('data-proposal-id'), success: function(){ $('#proposals').fadeOut(); } }); });` However, it appears that it just cuts and adds the row so there's no animation. Any help is appreciated.

A: Bind an animation on the tr element itself: `$('.delete-link').on('click', function() { var $this = $(this); $.ajax({ url: '/delete-proposal/'+$this.attr('data-proposal-id'), success: function(){ $this.closest('tr').css({'opacity':'0'}); $this.closest('tr').animate({'opacity':'1'},1000); } }); });`
