MEADOW LANDS "POWER RANGER", a three-dimensional RPG which I previously made for the iPad, on its arcade action game scene "Emilia".

#### **Gameplay**

The heavy influences of Emilia, the legendary RPG that has influenced many of the genres in the past, shine through the users of MOVEiD's PPN platform. THE NEW FANTASY ACTION RPG also allows you to engage in an "RPG battle" that incorporates an additional Action RPG game mode.

In THE NEW FANTASY ACTION RPG, you are required to traverse the Lands Between of the Elden Domain, and expand the lands of your own. In short, this is an interactive world where you can freely enjoy the vistas and battles of your choice.

The basic design of the gameplay is very simple. In the game screen, two areas are presented: "Travel" and "Battle."

In the Travel screen, you can select destinations. The area in the right is the map screen. To the right of

10/21/2017 KUDO I was a bit skeptical about this game, but after seeing the screenshots and playing it. Its really worth buying to play. Gameplay: I didn't have enough time to play the game, but I did like the game. Being able to use different classes which will allow you to play as a warrior, cleric, or wizard, you could make them into those types of characters, instead of the stereotypes for each class. Which makes it easier for a player to understand if they don't want to pick a race, but instead choose the class. Graphics: The graphics were good, not to much detail, but the graphics were good. Though on my macbook pro the game runs a bit slow. Game Pad: They didn't really explain this, but there are different things you can do when using the game pad. I know you can move your character but it also plays different songs when you play the game. Story: Its told in the story of four races fighting each other for control of the lands between. Those races being the elf, human, orc and half-elf. Most of the story is told in the form of characters thoughts and conversations to the player. Music: I didn't really get to hear much from the game, maybe they did some dynamic music. Overall: I'm looking forward to playing the game more. 10/17/2017 martinvh This game could be fun if everything is working as it should. I'm just trying to get in game. I'm just starting a game with a human and my character froze. It looks like I have to go through the whole intro again and I won't be able to do anything else until I can run again. Gameplay: This is a run and shoot game. It's fun if you can do everything. Unfortunately there isn't any direction because everything is randomized. I don't know where to go or how to even look for enemies. Graphics: The graphics look good. They make everything look familiar so it seems like the environment is just normal. They don't really use it for atmosphere but it doesn't matter because it looks good. Game Pad: You can move bff6bb2d33
