Download here: Pakistan has received the first batch of 153 Perdana Plasma (Bio-Electric Plasma) devices from China, said the Foreign Office in a statement. The Foreign Office urged Islamabad to play its role in promoting global peace and prosperity through "bilateral friendly cooperation". It also asked the global community to play their role in promoting global peace and prosperity through "bilateral friendly cooperation". The Bio-Electric Plasma (BEP) device is produced by Anhui Huayuan Technology Co Ltd and is designed to combat airborne diseases. The device has been specifically developed to help the healthcare system to treat acute and chronic respiratory conditions, muscular injuries, wounds, burns, eye and skin diseases, cancer, blood coagulation-related diseases, etc. It also could help maintain and promote the physical and mental health of patients, and promote the health of people and improve the quality of life of people. The Bio-Electric Plasma (BEP) system is a 'body machine' that operates like the body's electric nerve centre and is able to stimulate the human body on the basis of electricity, according to a report 6d1f23a050
