Football Manager Real Time Editor FM 2013 License 26

For those of you who use the official pre-game editor to create new leagues, transfer updates and other custom databases. (Page 2) . This post will be devoted to the analysis and optimization of some parameters in the editor, which can significantly increase the efficiency and speed of work. Editor options: 1. File download time. File loading time is the main parameter that affects the performance of the editor. There are several factors to consider when uploading a file to the database: file size, number of fields in the file, and number of lines in the file.
