
SANS-GCIA 503 Intrusion Detection(PDFs)

September 23, 2004 - Track 3 - Advanced Intrusion Detection.GIAC Certified Intrusion Analyst (GCIA). Practical task. Version 4.0. Jan Stodola. (In early September 2004, I received a GIA license from the American Computer Security Institute (ACSI) and have been using it extensively in my regular client meetings ever since.) IPS is a simple tool for identifying sources of network intrusions. It can be used on workstations of any type, from any computer connected to the corporate network.

SANS-GCIA 503 Intrusion Detection(PDFs)

sans-gcia 503 intrusion
detection(pdf)

Sandisgcia503 is a small and easy to use device that can detect the intrusion and alarms a non-system device in the home . It also provides the ability to record a message or audio to be able to help detect if the intrusion is due to a suspected threat or an

antitheft signal. The device is also compatible with the newly released SansGSI503 alarms system. The device is powered by one battery and can be connected to the power supply of a house, the dd2bc28256
