pit hartling has been the best magicians and closest live physical magicians in the world for years. he has sold out all over the world. he uses "card fictions" as an escape from day to day life. when the magician uses card fictions in his act, he becomes a unique individual who does not have to explain anything he does. the trick makes the audience feel as if they are witnessing an illusion. he has become the world's leading magician with card fictions. what can you do? whether you are a magic lover, or just an ordinary person, pit hartling will make you laugh and marvel at his incredible card fictions. a college student who attends my workshops had an idea of producing a material effect that he had for a very long time, he did not know how to reproduce and i find it very interesting. arnaud chevrier this package is a collection of a hundred memories, using decks that were in my library, memorized or not. all the memorized and many of the not memorized parts are "converted" in order to make the deck "searchable" by those who believe in them, and are interested in them, and who are interested in memory effects. as for those who don't believe in the power of memory: well, you are wrong! with or without having read this book, you

will still be able to develop your own memory effects and improve your decks. but for those who are interested in improving the effects that they know, they will find it here. in other words, we make the audience think that they are impossible. we use the fact that they are. if we can pull it off, then we can do absolutely anything. card fictions gives us a way to do that and it's something that can be expanded upon, to make real-life impossibilities on any level.
