KEYMACRO is a utility that creates key combinations from different sources, such as the Windows keyboard and the Mac keyboard. We recognize that switching from one platform to another is not always a simple task. We also know that our users are much more familiar with their Mac than with the PC. We therefore put together this application in order to make the transition from one platform to the other as easy as possible. Note: The trial version allows you to test all of the functions and features of the application. Keyboard Maestro Standard and Plus Key Combinations Generator : The free version of the program allows you to make up to 100 captures. For \$2.99 you can make up to 1000 captures. The premium version lets you create up to 5000 captures, and you can save them in a log. Premium version also allows you to create new captures directly from your log file. Keyboard Maestro is a powerful tool to automate the creation of new Windows shortcuts using a combination of keystrokes. Keyboard Maestro allows you to generate a combination of CTRL+ALT+T together with any key of your choice. Like all Keyboard Maestro releases, you will get a smart and easy-to-use wizard to explain how to start generating new key combinations, where you can select any key you like and how many you want. By clicking on the "Generate" button, you start the process to create a combination of CTRL+ALT+T, the default shortcut to open your web browser, or whatever key combination you wish to create. With a click of the mouse, you can select any window and modify the key combination, changing the order of your keystrokes and the press of your favorite key. Another simple step you can use to create a shortcut is to choose "Copy shortcut to clipboard". You can paste the new shortcut in any text editor or into the registry to use it as a new shortcut. A new, more flexible and complete version of the program is now available with 2 new features : - A choice of keyboard layouts. - Customizable keystroke order You can now choose a different layout by clicking on "Display..." at the top. You can define your key strokes in order, clicking on the left or the right arrow to move the keys around in the order you like. Keyboard Maestro is a powerful tool to automate the creation of new Windows shortcuts using a combination of keystrokes 2edc1e01e8
