Very well written and researched. Love it when a site gives features they have used and the reviews give honest and detailed first hand feedback. Nice review but after upgrading to LR5.2 RC I think performance is better than with LR4. Working on a project with 1500 D800 NEFs my impression is that the smart previews increase speed while working in the Developer mode - in Lib. mode however everything slows because the JPEG previews are used. So far I am not sure how the Jpegs are used as previews when you have the smart previews (DNGs) available. But have to say that I am happy with 5.2 RC although I will say bye-bye to LR the day they make it part of CC.
