What's New in the PATools Calendar?

Overview: PATools Calendar is an Excel spreadsheet designed to enable you to manage calendars directly from Excel. The application works for any year or period, with various options. All you need to do is just paste in your

logo and print. Sample Spreadsheet: PATools Calendar is a very easy to use calendar manager. You can create as many records as you want in any kind of layout you want. There are many different layouts. All layouts can be resized easily. The records include the following elements: * Calendar Day * Calendar Date * Calendar Time * Menu * Text * Tooltip

Limitations: This is an excel-based calendar. It is not possible to edit the calendar manually, but you can copy or send the calendar to someone to edit it. The event names are all done automatically, but the date can be changed.

Updates: Note: The amount of time it takes to change the date of the calendar depends on the version of Excel that you are using. The newest version (2009) is the quickest. The update time can be changed, in the Excel Options. Copyright: Copyright 2007 - Pat Tool Your feedback: Do you like this program? Do you have any problem using it? Are there any bugs? Please contact me by leaving a review on Windows Central I love this tool and use it daily, however, I can't for the life of me figure out how to customize the view. I want to make it so that only some days of the

month are listed. But it always shows all months. I have tried "Strictly X month" in the Day settings, but that doesn't do anything. Love this app! by Luca - 03/22/2008 Rating: "If you are having trouble modifying a calendar, open a new version. One other tip, it can be quite slow to open for the first time, so make sure you have the most current version, and/or it will not be as slow for future use. (Another tip, if you are having trouble modifying the calendar, make sure your day settings are set to every day. Don't forget to save after you make any changes, this app is very buggy when it comes to modifying the calendar. Otherwise, enjoy using this product.") PATools Calendar Review by Elmer - 01/31/2008 Rating: "I have used this product for about 2 years now, and I am extremely happy with the product. It is easy to use, and very powerful. I use it daily for work, and use the free weekend version for personal use. I would recommend this product." Easy to use by CAH - 09/02/2007 Rating:
