Lifeminders - Pigeonhole  
Organizer is a convenient  
and easy-to-use software  
utility especially designed  
to help you efficiently  
manage your personal  
information. It allows you  
to easily keep track of  
emails, phone numbers,  
favorites websites, movies,  
and other data that you

need to remember. It displays a grid of pigeonholes that resembles Microsoft's Excel spreadsheets. You can click on a pigeonhole and type text using the built-in editor. The text editor allows you to convert letters to upper, lower, sentence or proper case, as well as remove unnecessary blank lines,

marks from email messages, non ASCII characters, duplicate spaces and HTML tags. A small downfall of highlighting captions is that you can benefit by a limited number of colors and you might find yourself in the situation that your favorite color shade isn't among those colors. The software is ideal for

remembering email addresses, telephone numbers, favorite websites, movies and music lists.

Moreover, it provides a convenient way to organize information in your pigeonhole organizer. It allows you to add memos from web sites, email messages, and works or school projects. It allows you to rename each group

of pigeonholes and sort all your memos alphabetically. The option to backup and restore data is also available in this software. You can use it to easily backup and restore information that you need to remember.
